Global Regulatory Services (GRS) and GlaxoSmithKline plc

29 March 2010 – Cambridge, UK. Global Regulatory Services (GRS) is proud to announce that their active client base includes the multi-national pharmaceutical company, GlaxoSmithKline. Last year GRS successfully completed a project on advanced control strategies for continuous manufacturing and continue to support GlaxoSmithKline in their mission to "Grow, Deliver and Simplify".

Global Regulatory Services (GRS)

A full service regulatory affairs consultancy based in the UK offering resource, support, advice and solutions to life science companies worldwide. With a global network of several thousand consultants, many of whom are leaders in their field, GRS provides strategic advice as well as ensuring compliance with all the current and relevant regulations.

The company's vision is "*to be an integral part of an alliance focused on improving the health and welfare of the World's population*". To achieve this GRS will

1. support their clients with the development of their emerging, innovative technologies with the aim of improving human healthcare for both the few and the masses, and
2. provide solutions for regulatory challenges which allow both flexibility for the client and compliance with the relevant legislation without becoming over complicated.

GlaxoSmithKline plc

A British pharmaceutical, biological and healthcare company with a global reach. GSK is one of the world's largest pharmaceutical companies being ranked in the top three. Their principal pharmaceutical products include medicines in the therapeutic areas, such as respiratory, anti-virals, cardiovascular and urogenital, metabolic, anti-bacterials, oncology and emesis, dermatologicals and vaccines. The company also has a Consumer Healthcare division comprising leading oral healthcare products, nutritional drinks, and Over-the-Counter (OTC) medicines. Their mission is to "*improve the quality of human life by enabling people to do more, feel better and live longer.*"
